

# We're doing social needs screening because **WE WANT TO HELP!**

## How it Works:

- We ask you questions to see if you might need help.
- If you answer "yes" we give you some resources that might help you.
- We call you later to see how it went or if you need more help.

**80%** of your health is determined by social needs like money, transportation, housing and food as well as your health behaviors.
